ZEROMARGIN.LOANS

Cookie Notice

How ZeroMargin.loans uses cookies and similar technologies for website operation, security, and cookie-free analytics.

> Update of October 3, 2026: Account sign-in, liquidity requests, and file uploads on ZeroMargin.loans are suspended. While suspended, the website does not collect personal information through these features. Information submitted earlier is kept with restricted access and can be deleted on request at info@zeromargin.loans.

EFFECTIVE DATE	VERSION	DOCUMENT ID
October 18, 2026	1.3.0	ZM-COOKIE-001

1.0 Overview

1.1 What Cookies Are

Cookies are small text files stored on a user's device by a website. Similar technologies, such as local storage, session storage, SDK identifiers, pixels, and browser-based tokens, can serve related functions.

ZeroMargin.loans uses these technologies in a limited way to operate the website and protect the service. The website uses Cloudflare Web Analytics. It does not set cookies or use browser local storage; it measures aggregate page views and page load performance.

1.2 Scope of This Notice

This Cookie Notice explains how ZeroMargin.loans uses cookies and similar technologies in connection with the website and related online services. It should be read together with our Privacy Notice and Security page.

At this stage, ZeroMargin.loans does not use cookies for advertising, retargeting, behavioral ad profiling, data broker activity, or sale of personal information.

2.0 Technologies We Use

2.1 Essential Authentication and Security

Essential cookies and similar technologies are used to support core website functionality, fraud prevention, security, load balancing, and service reliability.

The website has no sign-in or account areas.

2.2 Hosting

ZeroMargin.loans is hosted on Firebase Hosting, provided by Google, behind Cloudflare. These providers may process technical data such as IP address and browser information to deliver and protect the website. The website does not offer sign-in and does not keep sign-in state.

2.3 Analytics

The website uses Cloudflare Web Analytics. It does not set cookies or use browser local storage; it measures aggregate page views and page load performance.

2.4 Cookies We Do Not Use

ZeroMargin.loans does not currently use advertising cookies, retargeting pixels, third-party ad network cookies, social media tracking pixels, affiliate tracking cookies, or data broker tags.

If this changes, we will update this Cookie Notice and, where required, provide appropriate notice or consent controls before using non-essential advertising or retargeting technologies.

2.5 Embedded Media

The website does not currently embed third-party media such as videos. If we add embedded media, we will update this notice before it goes live.

2.6 Audio Files and Podcasts

ZeroMargin.loans may publish audio files or podcast-style content. If audio is served as ordinary files from our own hosting or cloud storage, that delivery is not intended to add separate advertising or retargeting cookies.

If we later use an external podcast player, hosting platform, analytics SDK, or embedded audio service that sets or reads cookies or similar technologies, we will update this Cookie Notice where appropriate.

3.0 Google and Service Providers

3.1 Google Services

Google provides hosting (Firebase Hosting) and stores information submitted earlier through suspended features (Firebase), acting as a service provider. We do not link any website data to Google Ads.

3.2 No Advertising Sharing

ZeroMargin.loans does not share cookie data with advertising networks, data brokers, or social media advertising platforms for cross-site advertising or retargeting.

We may share limited technical or usage data with service providers only as needed to operate, secure, measure, maintain, or improve the website, subject to applicable contractual, technical, and legal restrictions.

4.0 How to Control Cookies

4.1 Browser Controls

Most browsers allow users to review, block, delete, or limit cookies through browser settings. Browser-level changes may affect preferences and other site behavior.

If you use multiple browsers or devices, you may need to apply cookie settings separately in each browser or device.

4.2 Consent Preferences

Where legally required or where we implement optional non-essential cookies, ZeroMargin.loans may provide a cookie banner, preference control, or other consent mechanism.

Because we currently limit these technologies to security and service operation, some technologies may be necessary for the website to function and may not be fully disabled through a site-level preference control.

5.0 Updates and Contact

5.1 Notice Changes

We may update this Cookie Notice from time to time to reflect changes in technology, law, consent practices, vendors, or website operations.

The current version of the notice will govern as of its stated effective date or last updated date.

5.2 Contact Us

Questions about this Cookie Notice or our use of cookies and similar technologies should be directed to info@zeromargin.loans.
